A NATURAL AND CASUAL LIFESTYLE
GIVES YOU A SPACE FOR YOUR SOUL

All the people hope find the "Sacred space" that belong to themselves merely, so that to stay hear and think over, reflect or away from the whole. Enjoy the short lonely time.

Get rid of the fickleness and fantod of life, sublimate the art of home furnishing from the mode of living which restrctions are erased. Experience the potency dimension of simplicity, and communicate with convenient life, bring about fun experience to the daily life every day, and step into the realm of mind to enjoy a new life.

The real good product always looks simple but with complex internality; simple works always require complex essentials of basic skill.

The image features three showerheads at the top, each with water spraying out. The showerheads are circular and have a grid of small holes. The water is depicted as a series of blue droplets and streams, creating a sense of movement and texture. The background is dark, making the blue water stand out. The text "ENJOY WATER" is written in a large, white, sans-serif font across the middle of the image.

ENJOY WATER

"Simple and complex". In contemporary modern city, people are fond of contracted appearance, anacreontic function, let individual inspiration follow the ground of sexual indulgence inside limited space to show. Only to create a unique, unconventional charm emotional appeal.

"LURAIN" IS THE DESIGN OF TOUCHING THE HEART WHICH LEADING YOU TO ENJOY LIKE TOUCHING THE SOUL.

“Enjoy water” What is the meaning of?

When we talk about the Future of water, we are describing the current and Future experience of water, as well as the release form of water, constantly changing and improving this experience. Fortunately, nature has given us examples of running water, from cascading waterfalls to falling rain, as sources of inspiration. We believe we have found a unique way for future generations to enjoy the planet's most precious resource.

Our technology allows you to enjoy a water bath in a way you never imagined possible. Langrui products bring interaction; it offers a variety of choices, and you can feel different choices leading to different feelings. For example, shower technology is applied at us all flower is aspersed, can make every flower is aspersed gush hole undertakes perfect balance to spray with same amount of water, offer all sorts of different spray means. Our customers are able to explore the unrivalled world of water in the future by choosing different products and experiences. Future of water!

ENJOY WATER

In the past five years, how did the bathroom evolve and what impact did it have on the development of new products?

The standard that the family decorates follow is to be in actually ceaseless change in, make the residence becomes the space that style of a all sorts of ideological trend mixes increasingly. Bathrooms are no longer pure, clean and functional Spaces - they have become the center of "improving physical and mental health". People are enjoying private time in the bathroom and want us to offer products that enhance that experience.

Improve people's quality of life, design products that meet their expectations, and promote the harmonious coexistence of people and water. No matter how home outfit stylist unconstrained conception toilet USES water means, our product can realize for it. This is our responsibility! Our products must be easy to operate, reliable, durable, and they must provide a unique experience for the customer.

Decorating the bathroom means an investment. How do you ensure that the design of the new product will still apply ten years from now?

We also work closely with the automotive, IT, clothing, watch and other fashion sectors to identify long-term trends. This ensures that our design is not only appropriate for today, but also for the future. What's more, we pay attention to the understanding of people's behavior pattern and desire, and the continuous exploration makes our design have a long life.

Our products are designed to withstand years of use under different pressures and harsh environments. Luang rui USES the best ceramic chip in the industry to ensure that no maintenance is required over the life of the product, while making the surface of the product shiny, stain-resistant, dust-resistant and resistant to scratches and discoloration, ensuring that the product is still shiny after years of use.

What can the future Lurain bring us?

The quality and products of goodness and beauty, that's what Lurain has impressed us with. On such a mundane basis we will continue to create world-class designs, trends mean the environment will be more unpredictable in the future, and technology and entertainment may also have an impact on the concept of bathroom design. Lurain will explore and create profound and iconic new forms that will open up new worlds of water bathing experiences.

Our way of life is changing ceaselessly, the bathroom is in domestic life important with each passing day, the technology that this asks us is one step ahead absolutely forever. For example: as bathroom and bedroom integral whole become tide day by day, prevent noise mute technology, such forward-looking technology, it changes the sound of hua hua running water into gentle, the flowing water like hypnosis whispers will become extremely important. For example, Lurain n-box USES airbags to reduce noise and protect the spool, increasing the service life of the spool.

How does Lurain meet customers' requirements in terms of environmental protection, economy and Lurain?

The most effective way is to reduce the negative impact of our design on the environment. Second, design products that customers trust and are happy to use, which enables them to keep the products longer and use them more efficiently.

Lurain is a responsible company that listens to and copies customers and CARES about the environment. Our products are made of high quality materials, combining water saving with ecology. Good design ensures long-lasting function and pleasure. Enrich the relationship between man and water and promote the harmonious coexistence of man and water.
