DISCOVER LURAIN

We combines modern aesthetics with practical functions. Simple but do not break downy, blossom charming design and practical function everywhere, build relaxed atmosphere. The soft, warm yet powerful our accessories can add a touch of sensuality to your healthy oasis, whether it's with a wash basin or a bathtub, installed on a stage or flush.

Lurain the everyday home apart. Simple but do not lose warmth, practical but do not lose interest – this brand new bathroom hardware series realized the perfect unity of function and design, suitable for any bathroom.

The combination of the two elements creates a strong visual impact for Lurain: the lightness of the natural shape and the charm of the modern design. This kind of perfect confluence, suit the style that any household decorates. These include interiors that feature straight lines and geometric shapes.

Some of the past, just remember;
Some memories, put away, fleeting shallow, I
would like to face the sea spring flowers.

ENJOY WATER

Drizzle like a fresh sea breeze, let you rejuvenate new machine, refreshing mist stroked your skin, let you restore youthful vitality. The name of a gentle shower says it all. A stream of soft water runs down the center of the shower head -- like a fresh mountain spring.

Forget the fatigue of the day, relax the muscles, lean back, let the pulsating dynamic massage claws work, give you the feeling of fingertips massage, relieve tension.
